

Dear teachers,

These kids, including my own, are enough to make you

... am I right? One minute they are

s,

ing your hopes and dreams. They

at

inappropriate times, act like

, and can be big

They are full of

, always telling

, and

getting in the

. They show no restraint, act

like

and

, drop and break things

like

s, and team up against us like

But there are also

kiddos. They can be

,

,

and sometimes even act like

. There are always a few

, who are

and

. Some students can even bring

and make you

.

The point is, whether

teachers are

for dealing with all they do. You all deserve

a gigantic

and a long and restful

many&many
Thanks,
